We have received correspondence from a number of people who state difficulty or delay in obtaining Chris Barber records from retailers. We are assured by our distributors that all recent titles are in stock and they can only assume that customers are being mis-informed by dealers who imply that the delay is the fault of the distributors. We can only suggest that all future similar difficulties are reported direct to the distributors of Black Lion records who are:

SP & S Ltd.,  
Wharf Road,  
Stratford,  
London E15.
